First-Time Exhibitor? _____

How to Enter

Bring this form to the regular meeting immediately before the show, when the show chair will assign your entry number. Your entry number must be on each of your entry cards. If you cannot make that meeting, mail or e-mail the entry information to the show chair.

In addition to officially entering you in the show, this form assists the show chairs in allocating space for plants.

- If your “specimen” entry has a spread of over 1 square foot, put a star next to that class number and indicate the amount of space the plant will take.
- If your “group of” entry will be over 1 foot wide, put a star next to that class number and indicate the amount of space your three plants will need.
- If you later decide that you will not bring an entry, please contact the show chair immediately so space can be reallocated.

Classes

Indicate the number of each class that you are entering. You may have only one entry per class.
